

INSTRUCTIONS AND USER GUIDE

Item No. 213032 Monitor Mount for Vertical Slot Attachment

DO NOT attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.

Item No. 213032

Attention:

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also**, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

Important

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

STEP 1 OF 4

Unscrew the screw on the lower part of the faceplate and remove it.

STEP 2 OF 4

Place the base plate of the Tilt Swivel onto the ProClip dash mount (or any other mount or flat surface). Attach the base plate by using the applicable screws enclosed self-tapping screws if the mount has small holes or machine screws with nuts if the mount is made of metal and has large holes.

STEP 3 OF 4

Place the faceplate over the base plate and screw the pieces together. Adjust the faceplate to desired position and tighten the screw further. Note that the face plate will be harder/looser to tilt and swivel depending on how tight you screw on the screw.

STEP 4 OF 4

The Monitor Mount is now in place. Place the screen onto the screen mount by sliding it downwards from above onto the nut in the center of the face plate. The rubber ring on the metal piece is to be OUTSIDE the groove on the back of the screen. Tighten the wheel on the back of the screen mount so the screen has a firm fit. The screen can be removed and you can take it with you when leaving the car.
