

INSTRUCTIONS AND USER GUIDE

Item No. 216115
Heavy Duty Aluminum Pipe Mount

DO NOT attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.

Item No. 216115

Attention:

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also**, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

Important

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

STEP 1 OF 4

Place the rubber pads

This pipe mount includes three rubber pads with adhesive backing. This ensures a secure fit and prevents any damage to the pipe.

Determine the location the pipe mount should face and apply the rubber pad to the pipe at that location. The 2 additional rubber pads should be placed on the back side of the pipe where the clamps will contact the pipe.

STEP 2 OF 4

Insert the pad

This pipe clamp includes a pad that will ensure a flat mount against the pipe and prevent rotation when mounted. The Pad also provides a backer for any fasteners that are threaded into the plate.

STEP 3 OF 4

Install the Clamps

Position the clamps on either side of the mount plate in the grooves of the mount plate. Using a screwdriver, tighten the first clamp lightly. Apply the 2nd clamp and then tighten both clamps firmly.

Once in place, the excess clamp can be trimmed off.

STEP 4 OF 4

AMPS Compatible M4 Holes

This mount plate features the AMPS hole pattern in 90 degree offset directions and features threaded M4 holes.

With the pipe clamp installed, it provides 3 points of contact and a shaped pad to ensure the mount does not rotate when in use.

Returns

All returns must be made within thirty (30) days of the delivery date and include proof of purchase, a copy of your original order, or invoice. No products shipped hereunder may be returned without ProClip USA's prior approval. In order to return a product, the buyer must obtain an RMA number (Return Merchandise Authorization Number). Items returned without a valid RMA number may be rejected. **Items that are open, used, damaged, or returned without all original components may have a restocking fee applied.**
