Item No. 246605

Galaxy Note 8 with Tech21 Evo Check

Attention:

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also**, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

Important

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

STEP 1 OF 4

Remove the base plate from the holder:

Using a standard Phillips screwdriver, completely loosen the center screw of the holder. The screw will not come out and will feel like it is just spinning.

Using light force, pull the base plate away from the back of the holder. This will separate the device holder from the base plate.

STEP 2 OF 4

Attach the holder to a ProClip vehicle mount:

Place the base plate over your desired mounting location on your ProClip vehicle mount. Attach the base plate using the included self-tapping screws with a standard Phillips screwdriver.

Place the holder onto the base plate and reattach it with the center screw. The center screw also controls the pivot; tighter for a firm hold and looser for easier rotation/angling of the holder.

STEP 3 OF 4

Fit your device in the holder grooves:

Slightly loosen the two smaller screws at the top and bottom of the holder with less than one full turn of a screwdriver. **Do not fully remove these screws.**

The holder arms can now be adjusted to fit your device.

STEP 4 OF 4

Slide your device down into the holder grooves:

Slide your device into the grooved slots and press the holder arms together, so your device is held in place. Carefully remove your device without changing the position of the side arms. Tighten the smaller screws to lock the holder arms into the correct position for your device.

Returns

All returns must be made within thirty (30) days of the delivery date and include proof of purchase, a copy of your original order, or invoice. No products shipped hereunder may be returned without ProClip USA's prior approval. In order to return a product, the buyer must obtain an RMA number (Return Merchandise Authorization Number). Items returned without a valid RMA number may be rejected. **Items that are open, used, damaged, or returned without all original components may have a restocking fee applied.**
