DO NOT attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.

Item No. 711239

Attention:

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also,** our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

Important

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

STEP 1 OF 4

To fit the holder to your device:
Loosen the screws above and below the center hole to release the side arms
(**DO NOT** fully remove these screws). Then slide the arms apart to widen the holder. Place the device into the grooved slots and press the arms together so the device is held in place. Next, carefully remove the device without changing the position of the side arms. Tighten the screws above and below the center hole to lock the arms into the correct position, suitable for your device.

STEP 2 OF 4

To install the holder onto a mount:
Completely loosen **ONLY the one screw in the center** of the holder. (the screw will not come out and may feel like it is just spinning) Then, using light force, pull the swivel base plate away from the back of the holder. This will separate the Device Holder portion from the Tilt-Swivel base plate.

Place the Tilt-Swivel base plate over the matching holes in your mounting bracket (demo mount shown in picture) Attach the base plate using the applicable screws.

STEP 3 OF 4

Place the holder onto the Tilt-Swivel base plate and reattach it with the center screw. The center screw also controls the pivot; tighter for a firm hold and looser for easier rotation/angling of the holder.

STEP 4 OF 4

Installation is complete:
Slide the device down into the holder.

Tilt or rotate the holder for best viewing angle.

Returns

All returns must be made within thirty (30) days of the delivery date and include proof of purchase, a copy of your original order, or invoice. No products shipped hereunder may be returned without ProClip USA's prior approval. In order to return a product, the buyer must obtain an RMA number (Return Merchandise Authorization Number). Items returned without a valid RMA number may be rejected. **Items that are open, used, damaged, or returned without all original components may have a restocking fee applied.**
