**Attention:**

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. The year listing we show on our web site should be the most accurate listing.

## **STEP 1 OF 4**

Clean the area where the ProClip will attach. The adhesive tape cover should be removed.

Press the thin edge on the included gap opener into the seam between the upper right console side wall and the panel around the heated seat buttons to widen the gap. (See photo for location.)

## **STEP 2 OF 4**

Place the ProClip in your hand so the ProClip label (sticker) is in an upright position / the P in ProClip is at the top.

Insert the upper angled edge on the left side of the ProClip into the seam next to the gap opener. (See photo for location.)

Pull out the gap opener.

### **STEP 3 OF 4**

Insert the gap opener into the seam between the lower right console side panel and the upper right console side panel. Press down on the right side of the ProClip and hook the lower right angled edge into the seam next to the gap opener. Pull out the gap opener.

**NOTE** - The adhesive tape cover should be removed. The tape does not leave any marks or damage the dashboard, and is easy to remove.

## **STEP 4 OF 4**

The ProClip is in place.
