

INSTRUCTIONS AND USER GUIDE

Item No. 853014 Center Dash Mount for BMW 7-series

BMW 7-series 2002-2008

DO NOT attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.

Item No. 853014

x2

GAP OPENER

Attention:

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also**, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

Important

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

STEP 1 OF 4

a) Press the thin ends of the two enclosed gap openers into the gap between the dashboard ledge and the air vent frame to widen the gap. (The air vent frame may pop up a little. The distance between the gap openers has to be wider than the width of the ProClip.) b) Peel off the cover of the adhesive tape on the ProClip. Press the thin angled edge on the upper part of the ProClip into the gap between the gap openers - don't press it all the way in so the adhesive tape attaches to the ledge yet.

STEP 2 OF 4

a) Remove the left gap opener and slide the ProClip to the left to desired position. b) Pull the lower part of the ProClip downwards so it hooks behind the wood grain panel. By doing this you seal the adhesive tape at the top of the ProClip.

STEP 3 OF 4

a) Press upwards on the lower part of the ProClip so the angled edge goes all the way in behind the wood grain panel. b) Remove the right gap opener by the upper part of the ProClip and press down on the air vent panel so it pops back into place.

STEP 4 OF 4

The ProClip Mount is in place.

Returns

All returns must be made within thirty (30) days of the delivery date and include proof of purchase, a copy of your original order, or invoice. No products shipped hereunder may be returned without ProClip USA's prior approval. In order to return a product, the buyer must obtain an RMA number (Return Merchandise Authorization Number). Items returned without a valid RMA number may be rejected. **Items that are open, used, damaged, or returned without all original components may have a restocking fee applied.**
