x2
GAP OPENER

Attention:

Carefully read all instructions and review the images before installing this product.
Do not attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.
Also, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

Important

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

STEP 1 OF 4

Press the thin end of one of the enclosed gap openers into the gap between the upper and lower center console panel frames, to widen the gap. Press the second gap opener into the gap next to the first gap opener to widen the gap even more. Note: The upper center console panel may pop out a few millimeters, which is OK. Pull out the right gap opener. Peel off the cover of adhesive tape on the ProClip.

STEP 2 OF 4

Press the curved edge on the upper part of the ProClip into the gap next to the gap opener. Flip the ProClip downward so the upper curved edge of the ProClip hooks behind the upper center console panel. Pull out the gap opener.

STEP 3 OF 4

Press a gap opener into the gap between the center console sidewall and the panel frame underneath the dashboard overhang. Press the other gap opener in the gap in the front of the panel frame underneath the dashboard overhang. Slide the gap opener to the left so it is positioned to the left of the ProClip. Press firmly forward on the lower part of the ProClip so the angled edge goes into the gap next to the gap opener. Press until you see or hear/feel it click into place. Pull out the gap openers. Press the upper center console panel back into place if it popped out.

STEP 4 OF 4

The ProClip Mount is in place.

Returns

All returns must be made within thirty (30) days of the delivery date and include proof of purchase, a copy of your original order, or invoice. No products shipped hereunder may be returned without ProClip USA's prior approval. In order to return a product, the buyer must obtain an RMA number (Return Merchandise Authorization Number). Items returned without a valid RMA number may be rejected. **Items that are open, used, damaged, or returned without all original components may have a restocking fee applied.**
