STEP 1 OF 4

Press the thin end of the enclosed gap openers into the gap between the center console panel frame and the console edge, to widen it. Peel off the cover of adhesive tape on the ProClip.

STEP 2 OF 4

Press the curved edge on the left side of the ProClip into the gap between the gap openers. Flip the ProClip towards the glove compartment so the curved edge hooks behind the center console panel. (Make sure the angled edge goes all the way behind the center panel.) Pull out the gap openers.

Notice: If the mount is attached too low, it might not attach securely enough.

STEP 3 OF 4

Press the gap openers into the gap in the console sidewall. Press firmly forward on the right side of the ProClip, so the angled edge goes into the gap between the gap openers. Press until you see or feel it snaps into place. Then press on the side of the ProClip to make sure the angled edge is all the way into the gap. Pull out the gap openers.

STEP 4 OF 4

The ProClip Mount is in place.
