Item No. 854261

**Angled Dash Mount for VW Golf (GTI)
VI, Jetta SportsWagen, Jetta Wagon**

Volkswagen Golf (GTI) VI 2010-2014
Volkswagen Jetta SportsWagen 2010-2014
Volkswagen Jetta Wagon 2010-2014

DO NOT attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.

Attention:

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also**, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

Important

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

STEP 1 OF 4

Peel off the cover of adhesive tape on the ProClip. Place the ProClip in your hand so the ProClip label (sticker) is in an upright position, or if vertically positioned; the P in ProClip is at the top. Press the thin end of the enclosed gap opener into the gap between the stereo frame and the surrounding panel frame, to widen the gap. Press the curved edge on the left part of the ProClip into the gap below the gap opener. Make sure the angled edge goes all the way into the seam so the tape attaches.

STEP 2 OF 4

Flip the ProClip to the right so the curved left edge hooks behind the stereo panel, and the right angled edge meets the padded part for the dashboard. Then place your left index finger behind the right side of the ProClip and bend out at the same time as you push forward on the right side of the ProClip. Push until you see or hear/feel the angled edge goes into the seam/gap in the dashboard sidewall.

STEP 3 OF 4

Press firmly on the right upper side to make sure the angled edge goes all the way into the gap. You should hear a click when it goes all the way in. Pull out the gap opener.

Note: The adhesive tape does not leave any marks or damage the dashboard, and it is easy to remove.

STEP 4 OF 4

Note: If the ProClip mount appears to be too long on the right side, you might have the left angled edge of the ProClip in the incorrect seam. Use the seam between the radio and surrounding panel. (see arrows on photo) The ProClip left angled edge should insert into the seam where the left arrow is showing not where the right arrow is.

Returns

All returns must be made within thirty (30) days of the delivery date and include proof of purchase, a copy of your original order, or invoice. No products shipped hereunder may be returned without ProClip USA's prior approval. In order to return a product, the buyer must obtain an RMA number (Return Merchandise Authorization Number). Items returned without a valid RMA number may be rejected. **Items that are open, used, damaged, or returned without all original components may have a restocking fee applied.**
