## Item No. 855390 Center Dash Mount for Toyota Avalon

Toyota Avalon 2013-2018

**DO NOT** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.

## Item No. 855390

---

### Attention:

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also**, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

### Important

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

## **STEP 1 OF 4**

Clean the area where the ProClip will attach. The adhesive tape cover must be removed. Place the ProClip in your hand so the ProClip label (sticker) is at the top.

Tilt the ProClip so the face plate is pointing upward. Then, insert the front angled edge of the ProClip into the seam between the padded trim at the top of the dash and the top dash panel in front of the padded trim.

**See photo. Make sure the mount edge goes all the way into the seam.**

## **STEP 2 OF 4**

### **NOTICE:**

The front edge of the ProClip needs to slide under the front top dash panel in front of the top padded trim. You will need to press down and keep the front edge of the mount deep into the seam when you rotate the ProClip down so the top/front angled edge hooks under the front top dash panel.

### **STEP 3 OF 4**

Place your fingers behind the face plate of the ProClip and flex the ProClip towards you and hook the lower angled edge of the ProClip under the top chrome edge of the vent frame.

## STEP 4 OF 4

The ProClip is in place.

## Returns

All returns must be made within thirty (30) days of the delivery date and include proof of purchase, a copy of your original order, or invoice. No products shipped hereunder may be returned without ProClip USA's prior approval. In order to return a product, the buyer must obtain an RMA number (Return Merchandise Authorization Number). Items returned without a valid RMA number may be rejected. **Items that are open, used, damaged, or returned without all original components may have a restocking fee applied.**
