DO NOT attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.

A close-up photograph of a car's interior, specifically the center console. A black, rectangular sensor is mounted on the gear shift knob. The sensor has four small holes, likely for screws. The gear shift knob is black with a textured grip. In the background, the car's air vents and a portion of the dashboard are visible. The dashboard features a digital display showing 'MODE' and '100%'. The overall interior is dark with some metallic accents.

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also**, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC, shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC, product warranties do not cover the installation, removal or reinstallation of any product.

STEP 1 OF 4

Clean the area where the ProClip will attach. insert the gap opener into the seam between the left frame around the left center vent and the padded part of the dash, to widen the gap. (See photo.)

The adhesive tape cover must be removed.

STEP 2 OF 4

Place the ProClip in your hand so the ProClip label (sticker) is on the left.

Place the right edge of the ProClip, with the tape, onto the left side of the vent frame.

STEP 3 OF 4

Press forward on the left side of the face plate to flex the left attaching edge into the seam above the gap opener.

Pull out the gap opener.

STEP 4 OF 4

The ProClip is in place.

NOTE - The adhesive tape cover should be removed. The tape does not leave any marks or damage the dashboard, and is easy to remove.
