## Item No. 855420 Center Dash Mount

Freightliner Cascadia 2018-2026

**DO NOT** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.

Item No. 855420

---

**Attention:**

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also**, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

**Important**

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

## **STEP 1 OF 4**

Clean the area where the ProClip will attach. The adhesive tape cover must be removed.

Insert the thin front edge of top part of the mount into the seam between the soft dash top and the tray on the top of the dash. Use the included gap opener if needed. The mount fits in numerous locations along the center dash area.

## STEP 2 OF 4

Find the seam between the padded dash top and the hard plastic frame/panel around the radio and instrument/gauges. Align the face plate part of the mount with the top part inserted into the dash top. The tape should be facing toward you. Then press the thin edge of the face plate part of the mount into the seam between the bottom of the padded dash top and the panel around the instrument/gauges.

### **STEP 3 OF 4**

Rotate top part down while pressing forward to make sure the edge stays in the seam and under the top tray. At the same time, rotate the lower face plate part of the mount upward and align the two parts up. Press forward on the lower part to make sure it stays in the seam and hooks behind the instrument/ gauges panel.

## **STEP 4 OF 4**

Use the included screws to attach the two parts together.

**NOTE** - The adhesive tape cover should be removed. The tape does not leave any marks or damage the dashboard, and is easy to remove.

## Returns

All returns must be made within thirty (30) days of the delivery date and include proof of purchase, a copy of your original order, or invoice. No products shipped hereunder may be returned without ProClip USA's prior approval. In order to return a product, the buyer must obtain an RMA number (Return Merchandise Authorization Number). Items returned without a valid RMA number may be rejected. **Items that are open, used, damaged, or returned without all original components may have a restocking fee applied.**
