STEP 1 OF 4

Clean the area where the ProClip will attach.

Press the thin end of the enclosed gap opener into the gap between the control panel and the dashboard overhang, to widen the gap. Press the angled edge of Part 1 into the gap next to the gap opener. Press Part 1 upward and forward so the angled edge hooks behind the control panel. Pull out the gap opener.

STEP 2 OF 4

Remove the adhesive tape cover on Part 2. Hold Part 1 in the correct position, press it upward. Then place Part 2 over the holes in Part 1 so the holes match.

STEP 3 OF 4

Hold part 1 in the correct position and press it upward while attaching Part 2 onto Part 1 with the enclosed screws.

NOTE - The adhesive tape cover should already be removed. The tape holds the mount in place and does not leave any marks or damage the dashboard, and is easy to remove.

STEP 4 OF 4

The ProClip is in place.
