## Item No. 855618 Center Dash Mount for Toyota Highlander

Toyota Highlander 2020-2026

**DO NOT** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash.

Item No. 855618

  
GAP OPENER

---

**Attention:**

Carefully read all instructions and review the images before installing this product. **Do not** attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash. **Also**, our installation instructions are often printed prior to the last year of a ProClip mount listing. The year listing we show on our web site should be the most accurate listing.

**Important**

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, LLC. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, LLC. product warranties do not cover the installation, removal or reinstallation of any product.

## **STEP 1 OF 4**

Clean the area where the ProClip will attach. The adhesive tape cover must be removed.

Place the ProClip in your hand so the ProClip label (sticker) is on the left

Hook the left edge of the ProClip onto the left edge of the left vent frame.

## **STEP 2 OF 4**

Press the ProClip to the right and hook the right edge of the ProClip onto the right edge of the left vent frame.

### **STEP 3 OF 4**

The right seam can be difficult to get the mount into but it is very important to do or the mount will not be secure on the right side. To help, try placing the gap opener into the seam under the dash panel and gently pressing forward to lift the panel a little. This will open the seam to allow the mount edge to go in. When the right edge of the mount is in the seam, the mount should not move forward and back in the vent opening and the tape should connect.

## **STEP 4 OF 4**

The ProClip is in place.

**NOTE** - The adhesive tape cover should be removed. The tape does not leave any marks or damage the dashboard, and is easy to remove.

## Returns

All returns must be made within thirty (30) days of the delivery date and include proof of purchase, a copy of your original order, or invoice. No products shipped hereunder may be returned without ProClip USA's prior approval. In order to return a product, the buyer must obtain an RMA number (Return Merchandise Authorization Number). Items returned without a valid RMA number may be rejected. **Items that are open, used, damaged, or returned without all original components may have a restocking fee applied.**
